

Product Technical Bulletin

PRODUCT NAME:
PC-1 Rubbing Compound

PART #:
501201

PACKAGE:
32 oz.

PRODUCT CATEGORY:
Compounds

COLOR:
Lt. Pink

SCENT:
Strawberry

ABRASIVENESS:
8.5 - 9 out of 10 (10 is highest amount of abrasive)

PRODUCT DESCRIPTION:

PC-1 Rubbing Compound has been formulated specifically for paint finishing on scratch resistant surfaces including UV Cured paints. This new technology replaces traditional compounds and polish/glaze systems to provide a quicker cut to level out 1,500 grit sand marks and remove imperfections quicker and easier, while leaving a brilliant mirror-like gloss.

DIRECTIONS:

- Shake well.
- Apply a small amount of product to the paint.
- Set Variable Speed Polisher to 1,250 – 1,500 RPM.
- Work in a 1½ foot (½ meter) square area and polish to high gloss.
- Remove any remaining compound residue with a soft clean cloth.
- Wipe carefully with a clean, soft microfiber cloth.

NOTE: Can be used with a foam polishing pad at 1,200 – 1,400 RPM for as a final finish.

SURFACE APPLICATIONS:

OEM paints, repainted or refinished, lacquers, clear-coats and single stage paints. Also for use on water borne or high solids paint.

ADDITIONAL USES:

Marine gel coats, plastic headlight covers, Plexi-glass surfaces.

HELPFUL TIPS:

Clean compounding pads frequently. Remove compound residue with clean terry or microfiber cloths.

SAFETY & HANDLING:
