

INTRODUCING THE AUTO MAGIC® SWIRL FREE SYSTEM™

VIRTUALLY ELIMINATE SWIRLS FOR A SMOOTH AS GLASS FINISH

The Auto Magic Swirl Free System™

A system designed for the professional reconditioning experts to help eliminate swirl marks and to restore and recondition automotive paint to show room condition. Used with dual action polishers, the two-step system utilizes the following Auto Magic products:

STEP 1

XP Magic Cut™ is an advanced compound that works remarkably fast on all types of cured and fresh paint surfaces. *Use with a medium cut foam pad.*

- Micron-sized abrasives level paint imperfections quickly
- Rapidly removes 2,000 sandpaper marks, scratches, acid rain, oxidation, and other paint imperfections
- Corrects paint while producing rich color depth and high gloss reflection

STEP 2

White Magic® cleaner/wax combines the cutting power of a polish with the shine and durability of a paste wax. *Use with a polishing or finishing foam pad.*

- Safe for use on clear coat and conventional paint finishes

Helpful Tip: For an even better and brighter finish, we recommend first using the original Clay Magic® clay bar to remove harmful surface contaminants such as paint overspray, tree sap, bug residue, industrial fallout, and other stubborn dirt.
