SECTION 4 First aid measures

4.1 Description of first aid measures

Inhalation  
This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure. No data available

Eye Contact  
Use an eye wash to remove a chemical from your eye regardless of the level of hazard. Flush the affected eye for at least twenty minutes. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Seek medical advice after flushing. No data available

Skin Contact  
Wash with soap and water. No data available

Ingestion  
No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS. No data available

Self protection of the first aider  
No data available

4.2 Most important symptoms and effects, both acute and delayed

Symptom  
See Section 4.1

4.3 Indication of any immediate medical attention and special treatment needed

Note to Doctor  
No additional first aid information available

SECTION 5 Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media  
Use alcohol resistant foam, carbon dioxide, dry chemical, or
water spray when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly into the hot burning liquid.

Unsuitable extinguishing media  No data available

5.2 Special hazards arising from the substance or mixture

Fire and/or Explosion Hazards  Vapors may be ignited by sparks, flames or other sources of ignition if material is above the flash point giving rise to a fire (Class B). Vapors are heavier than air and may travel to a source of ignition and flash back.

Hazardous Combustion Products  Carbon dioxide, Carbon monoxide, Formaldehyde, Silicon dioxide

5.3 Advice for firefighters

Fire Fighting Methods and Protection  Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Flammable component(s) of this material may be lighter than water and burn while floating on the surface.

SECTION 6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For Non-emergency Personnel  Non-emergency personnel should be kept clear of the area.

For emergency responders  No adverse health affects expected from the clean-up of spilled material. Follow personal protective equipment recommendations found in Section VIII of this MSDS.

6.2 Environmental precautions  No data available

6.3 Methods and material for containment and cleaning up  No special spill clean-up considerations. Collect and discard in regular trash. Ensure clean-up measures are in compliance with OSHA (29 CFR 1910.120).

6.4 Reference to other sections  Refer to section 13 for disposal information.

SECTION 7 Handling and storage

7.1 Precautions for safe handling  No special handling instructions due to toxicity. No special handling requirements

7.2 Conditions for safe storage, including any incompatibilities  Store in a cool dry place. Isolate from incompatible materials. No special storage requirements

7.3 Specific end use(s)  Automotive detailing

SECTION 8 Exposure controls/personal protection

Occupational Exposure limit values
8.2 Exposure controls

Appropriate engineering controls
No exposure limits exist for the constituents of this product. No engineering controls are likely to be required to maintain operator comfort under normal conditions of use.

Individual protection measures, such as personal protective equipment

Eye and face protection
Wear safety glasses when handling this product. Wear goggles and a Face shield

Skin Protection

Hand protection
No information available

Other skin protection
Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Where use can result in skin contact, practice good personal hygiene. Use of protective coveralls and long sleeves is recommended.

Respiratory Protection
No respiratory protection required under normal conditions of use. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator.

Thermal hazards
No data available

Environmental exposure controls
