

Product Technical Bulletin

PRODUCT NAME:

Tunnel Pre-Soak

PART #:

507105
507155

PACKAGE:

5 Gallon
55 Gallon

PRODUCT CATEGORY:

Car Wash

COLOR:

Blue

SCENT:

Cherry

PRODUCT DESCRIPTION:

Tunnel Pre-Soak is designed with soil lifting and water conditioners to penetrate and loosen traffic film and bug residue from exterior vehicle surfaces, while rinsing cleanly to prevent streaking. Help reduce the chances of clogged tips and plugged lines in challenging hard water environments.

DILUTION RATIO:

Dilute 1:50 – 100+ with water

DIRECTIONS:

Pour 4 ounces of Blue Car Wash Shampoo® Concentrate into a 5 gallon pail. Use a pressure washer or garden hose to generate suds. Wash vehicle with a clean wash mitt or soft sponge. Rinse with water, then dry with a soft towel, chamois or squeegee.

SURFACE APPLICATIONS:

For exterior washing/cleaning of clear coat, single stage, acrylic, lacquers, enamels, as well as powder-coated paints. Also cleans glass, chrome, plastic, vinyl, rubber, wheels, tires, and more.

ADDITIONAL USES:

Excellent on RVs, boats, motorcycles, ATVs, and more.

HELPFUL TIPS:

Use on cool surfaces. To quickly cool the surfaces, rinse entire vehicle with pressurized water before use. This will also help to loosen and remove dirt. It is best to use a separate wash mitt or sponge on the lower body areas, fender wells, wheels, and tires to avoid scratches from small rocks and dirt.

SAFETY & HANDLING:

Safety Data Sheets can found online at automagic.com
